## Land Acknowledgement

As part of the colonial history of Canada, non-Indigenous peoples have derived benefit from what the Royal Commission on Truth and Reconciliation defines as the “cultural genocide” of Indigenous peoples in this country.

At Confederation College, we accept our responsibility in a national reconciliation process and acknowledge that we are accountable for this tragic history. We are working to address injustices against Indigenous peoples and honouring our relationships with communities.

In renewing our relationships and building reconciliation processes, we are respecting the leadership of Indigenous peoples in changing the educational landscape. It is against this backdrop that Confederation College acknowledges that it is on Indigenous land and recognizes the presence of the First Nations, Métis and Inuit peoples in the area.

## HIGHLIGHTS

**TEC Hub:** Confederation College's TEC Hub boasts specialized labs that effectively simulate real-world working environments, allowing students to gain practical, hands-on experience. The facility promotes cross-disciplinary collaboration, emphasizing the interconnections between technology and resource management. It also exhibits a strong commitment to sustainability, employing green technologies to minimize its environmental impact.

**Applied Research:** Students in the engineering, trades, and natural resources programs are not only learning; they are creating and innovating. They have the unique opportunity to work with experienced faculty, staff and industry partners on collaborative projects. These aren't just hypothetical exercises, but real-world applications that contribute to research and development in their respective fields. This approach enables students to build their practical skills, engage with modern technology, and foster a deep understanding of their disciplines.

# Apprenticeship Programs

There are more than 130 skilled occupations that can be practiced through Ontario's apprenticeship training system. Chefs, educational assistants, plumbers, auto mechanics and welders are all trades that can be defined as "skilled trades," and represent occupations that are integral to the function of Ontario's economy.

Apprentices learn a skilled occupation by combining in-school training courses with paid on-the-job training. About 90 per cent of apprenticeship training is provided in the workplace by an employer, while the remainder involves in-school instruction at a training institution like Confederation College.

## HOW TO BECOME AN APPRENTICE:

1

Find an **employer or union** who is willing to sponsor or train you

2

### GENDER-INCLUSIVE FACILITIES AT CONFEDERATION COLLEGE

We have gender-inclusive washrooms and change rooms on each campus where anyone, regardless of gender identity or presentation, can use the provided facilities.

Washrooms and change rooms include signage, indicating the space is inclusive and that Confederation College respects everyone's right to choose the washroom that is appropriate for them.

Inclusive signage is also posted outside binary facilities to decrease fear and anxiety for trans and non-binary people allowing them to feel comfortable in the facility of their choice.

If you have questions or looking for more information email [pride@confederationcollege.ca](mailto:pride@confederationcollege.ca)

In keeping with our commitment to building an inclusive school that empowers everyone to have the confidence to succeed, we have made menstrual products available in washrooms, free of charge.

# Negahneewin Student Services – APIWIN

Located in the heart of the Shuniah building at Confederation College, the Indigenous students lounge aptly named APIWIN, meaning “a place to sit” is a quiet, safe learning space for Indigenous students to gather, study, and participate in cultural-based programs and events.

**Negahneewin Student Services** supports and engages Indigenous students with academic, personal, transitional, social and cultural success. The dedicated Indigenous Student Navigators and Counsellors help students transition to and through college life by providing support and connections within the college and community, both in-person and virtually.

## **Indigenous Student Navigators:**

Our Indigenous Student Navigators (ISN) act as a liaison between each student and their needs. They help students identify areas of difficulty and develop strategies to improve their academic journey. Our ISNs provide information, direction, and make referrals to other departments in the college and external agencies.

**Counsellors:** Within a cultural and community context, the Indigenous Counsellors support students in understanding the impact of mental, emotional, and spiritual health on learning. Counsellors create a safe and welcoming environment through a variety of methods that are culturally informed.

## OSAP, AWARDS AND OTHER PROGRAMS

The Financial Aid office is here to help you anticipate, plan for and manage your college expenses. Your education is the best investment you'll ever make. Throughout the year our Financial Aid team offers workshops, tools and other resources to help you with paying your college expenses. Visit [www.confederationcollege.ca/financialaid](http://www.confederationcollege.ca/financialaid) for more information.

### ONTARIO STUDENT ASSISTANCE PROGRAM

Residents of Ontario studying in a ministry-approved, post-secondary program may be eligible for federal and provincial financial assistance to help meet their educational costs. The OSAP program is a mix of loans and grants, with more grant funding (non-repayable) made available up front. Students may be eligible to receive enough grant funding to cover the cost of their tuition. Want to find out more? [www.ontario.ca/osap](http://www.ontario.ca/osap)

### AWARDS & OTHER PROGRAMS

- Entrance awards (available to first-year students)
- In-program awards and bursaries
- Campus employment opportunities

### ONTARIO LEARN AND STAY GRANT

The Ontario Learn and Stay Grant provides **free tuition** and covers the costs of books and supplies for students in our Paramedic, Practical Nursing, and Bachelor of Science in Nursing programs for those who meet the requirements.

# General Admissions

## INFORMATION AND REQUIREMENTS

### 1. ENGLISH LANGUAGE PROFICIENCY

Students must have Grade 12 English, or another approved English proficiency credential, such as IELTS, TOEFL, or Duolingo. Our Mature Student Assessment may also be an option. For more information, contact Recruitment [recruitment@confederationcollege.ca](mailto:recruitment@confederationcollege.ca) or (807) 475-6335.

### 2. PROGRAMS THAT REQUIRE MATH CREDITS FOR ADMISSIONS

Not all math credits are equal. Please confirm with a Student Recruitment Officer to find out which math is needed for your program. [www.confederationcollege.ca/studentrecruitment](http://www.confederationcollege.ca/studentrecruitment).

### 3. COMPETITIVE PROGRAMS

Popular programs at Confederation College often have more applicants than available spots. Meeting minimum requirements does not guarantee admission. Additional selection criteria may apply. Submit your application before February 1, to be equally considered among other applicants. Mid-term grades in required courses will be considered during selection.

### 4. WAIT LISTS

Starting February 1, a wait list is created for oversubscribed programs, ranked by grades rather than application date. If a seat becomes available, the next highest-ranked applicant is offered the spot. Applications to waitlisted programs are still accepted. Second round offers are sent on May 1. Seat openings are possible but not guaranteed. Offers can continue until the 10th day of the program, excluding those with medical requirements, early mandatory field schools or safety training.

### 5. TECHNOLOGY REQUIREMENTS

Confederation College provides students with access to satellite stations, library computer terminals, and computer services on campus. Most Technology and Media Arts programs provide technology and equipment for learning purposes. However, for specific requirements for the Computer Programming program, please contact your Program Coordinator.

## Frequently Asked Questions

### What's the selection process for a competitive program if I'm a high school student without the necessary courses?

We recommend taking the required courses during Grade 11 or first semester of Grade 12. Your mid-term mark will be considered if you're currently enrolled in the necessary course. For those taking the course in the second semester, a minimum grade will be applied if your transcript shows your enrollment.

### What criteria are used for competitive program selection?

Required course grades are primarily used for comparison. The Medical Radiation Technology program, however, selects based on 70% grades, 25% questionnaire, and 5% work/volunteer experience. For average grades for first round offers, see [www.confederationcollege.ca/admissions/selection-statistics](http://www.confederationcollege.ca/admissions/selection-statistics).

### What if I have workplace credits, low marks, or lack prerequisites for my chosen program?

Confederation College offers several programs to help you qualify - Pre-Health, Pre-Technology, College Access, General Arts and Science, Academic Upgrading, and the Mature Student Assessment. Consider the College Access or General Arts and Science programs if you're 19 years of age or older without a high school diploma.

**Capstone Project:** Final-year project where students apply their knowledge and skills to real-world problems or research questions. It allows students to showcase their expertise, critical thinking, and creativity while making a meaningful contribution to their field of study.

**Co-Op:** Paid work experience that provides students with practical, hands-on experience in real-world work environments. Occurs outside of the academic term.

**Field Placement:** On-the-job experience where students apply the theories and

skills they have previously studied in a real-world setting in their field.

**Field Work:** Practical work conducted in an environment outside the classroom.

**Practicum:** Supervised, unpaid on-site work experience.

**Applied Research:** Students have the opportunity to work with faculty and staff on industry-relevant projects to build their skills and be part of cutting-edge research and development.

“When I first decided to apply to college I was extremely nervous. I didn’t know what I wanted to do. The recruitment team helped put my mind at ease. They went through all the programs at my appointment and explained what I would learn, which made my decision easy and they even helped me apply that very day. I’m excited to start a new chapter in my life.”
