The Polytechnic Advantage

Our grads are in demand

There's a reason why Saskatchewan Polytechnic has a consistently high grad employment rate, and why we score top marks with employers. Our focus on applied learning develops marketable skills that prepare you to contribute from day 1 on the job. The blend of knowledge, skills and experience you'll acquire here is a big advantage in today's market.

You'll benefit from our close relationships with employers

Saskatchewan Polytechnic not only develops curriculum in consultation with employers, but we ensure that it's up-to-date and relevant through program advisory committees. About 700 representatives lend their expertise to these committees, which include employers, practitioners and grads.

150+ programs to choose from

We offer degrees, diplomas, certificates and apprenticeship training that lead to rewarding careers in business, information technology, health, mining, transportation and other sectors of the economy. Many of our programs let you put your credential toward a professional designation, advanced professional standing or university degree.

You'll learn by doing

Hands-on learning opportunities let you apply what you learn in the classroom to real-world situations. Depending on your program, you'll reinforce your skills through labs, clinical placements, field investigations, outdoor camps, machinery time, workplace practicums and/or co-op work terms.

Applied research opportunities

Sask Polytech students are encouraged and supported by faculty to partner with business, industry and the community on applied research projects that provide real world solutions to today's challenges. Participating in applied research gives you hands-on experience so you can transition seamlessly into your chosen career and position yourself as an employee of choice in today's competitive job market. REAL
EDUCATION

REAL
CAREERS

REAL
SUCCESS

93% of graduates are satisfied to very satisfied with program quality.

Moose Jaw

Treaty 4 Territory and Homeland of the Métis People
saskpolytech.ca/whyMooseJaw

Population:
about 32,000.

Moose Jaw has a colourful history that is showcased in its downtown architecture (both above and below ground).

Moose Jaw has a small town feel with big city amenities. With shopping malls, grocery stores, libraries, recreation complexes, movie theatres, easy access to health care, parks and more, Moose Jaw has everything a student needs. Moose Jaw is host to many community events throughout the year, from music and food to theatre and family fun. With a historic downtown and underground tunnels, Moose Jaw's celebration of heritage and history makes it unique. If you like sports, join the locals and cheer on the Moose Jaw Warriors junior hockey team.

Saskatchewan Polytechnic Moose Jaw Campus

State-of-the-art lab facilities for six engineering technology programs and home to many of our business programs.

Population:
about 35,000.

The city is a one-hour drive from Prince Albert National Park, an oasis for camping, hiking and other outdoor activities.

Prince Albert

Treaty 6 Territory and Homeland of the Métis People
saskpolytech.ca/whyPrinceAlbert

Prince Albert has everything a student needs, with plenty of amenities such as shopping malls, grocery stores, libraries, recreation complexes, movie theatres, health care facilities, parks and more. Prince Albert is the gateway to northern Saskatchewan. Lakes, forests and rivers all within a short drive from the city let residents explore the natural beauty of Saskatchewan. If you like sports, join the locals and cheer on the Prince Albert Raiders junior hockey team.

Saskatchewan Polytechnic Prince Albert Campus

Home to our natural resources programs as well as a high fidelity simulation centre used for nursing and continuing care assistant training.

Hannin Creek

In partnership with the Saskatchewan Wildlife Federation, Hannin Creek provides industry experts and students with unique hands-on learning opportunities in forestry, fisheries, wildlife, conservation law, recreation, environmental, civil and water resources technologies.

Regina

Treaty 4 Territory and Homeland of the Métis People
saskpolytech.ca/whyRegina

Population: more than 215,000.

Wascana Centre is 3x bigger than New York's Central Park.

Regina is the sunniest capital city in Canada.

Regina is the capital city of Saskatchewan and one of Canada's fastest growing major cities. Often called the Queen City, Regina is rich in history and heritage. With plenty of amenities, such as shopping malls, grocery stores, libraries, recreation complexes, movie theatres, parks and easy access to health care facilities, Regina has everything a student needs. As a four-season city, there are endless opportunities for fun. Visit a museum, take in a sporting event, try a local eatery or enjoy Wascana Centre, a beautifully landscaped park surrounding a 120-hectare lake. If you like sports, join the locals and cheer on the Saskatchewan Roughriders professional football team or the Regina Pats junior hockey team.

Saskatchewan Polytechnic Regina Campus

Located in Wascana Centre, Regina Campus is home to industry-driven programs in technology, human services and health care, as well as 10 shops for industrial trades training. The applied research Innovative Manufacturing Centre (IMC) is also located at Regina Campus.

Population: more than 245,000.

20-minute average commute.

One of the lowest costs of living among major cities in Canada.

Saskatoon

Treaty 6 Territory and Homeland of the Métis People
saskpolytech.ca/whySaskatoon

Divided by the South Saskatchewan River, Saskatoon is often described as the “Bridge City” because of its nine river crossings. Saskatoon is an economic and cultural hub with endless opportunities for fun. Explore a museum, experience local eateries, picnic by the river or grab some snowshoes and hit the trails. With plenty of amenities, such as shopping malls, grocery stores, libraries, recreation complexes, movie theatres, health care facilities, parks and more, Saskatoon has everything a student needs. If you like sports, join the locals and cheer on the Saskatoon Blades junior hockey team, the Saskatchewan Rush professional lacrosse team and the Saskatchewan Rattlers professional basketball team.

Saskatchewan Polytechnic Saskatoon Campus

State-of-the-art lab facilities, including a nursing and health sciences simulation centre. Applied research centres include the Innovative Manufacturing Centre (IMC), Digital Integration Centre of Excellence (DICE) and BioScience Applied Research Centre (BARC).

Student Life

At Saskatchewan Polytechnic, we realize there is more to your education than what takes place in the classroom. We offer an abundance of student supports, events and services to support your successful learning journey.

Learn more at saskpolytech.ca/student-services.

Indigenous Services

Welcome to Saskatchewan Polytechnic on Treaty 4 and Treaty 6 Territories and the Homeland of the Métis People. At Sask Polytech, helping students achieve their educational and career goals is our top priority. We work hard to ensure everyone has an equal opportunity to succeed.

With more than 19 per cent of Sask Polytech's total student population identifying as Indigenous, it is the responsibility of the entire institution to ensure each and every student has an equal opportunity to succeed in their educational and career goals.

Sask Polytech supports Indigenous students in their educational journey — from finding housing and child care to providing a welcoming environment on campus. Indigenous student advisors help orient students to Sask Polytech and the community and connect students with outside resources and networks. Indigenous Students' Centres are located at the main Sask Polytech campus in each campus city. These centres offer students a safe space to connect with Elders, Knowledge Keepers and cultural advisors who can provide academic, emotional and spiritual support. Each centre hosts a variety of cultural activities and events, provides a quiet space to study and a number of services.

International Students

Which programs are open to international students?

Look for the globe icon in this book.

Visit saskpolytech.ca/international/programs

If you cannot access the program you're interested in via the online application, it means the program does not accept international students or it is full for the next intake.

When should I apply?

You can apply as soon as you have completed the courses at the grade level you need for admission. You must also meet our English language requirements. For example, the majority of our programs require a 6.5 overall score in the IELTS academic exam. For information about these requirements, visit: saskpolytech.ca/englishlanguage/requirements.

Ensure that you allow enough time for us to review your application and for Immigration, Refugees and Citizenship Canada (IRCC) to process your application for a study permit. IRCC lists processing times at canada.ca/en/immigration-refugees-citizenship/services/application/check-processing-times.html.

For more information about applying to Saskatchewan Polytechnic as an international student, see saskpolytech.ca/International/apply.

Note: There is a different application process for the Saskatchewan Collaborative Bachelor of Science in Nursing program. Visit sasknursingdegree.ca for more information.

How do I apply?

Complete the international online application form by clicking the "apply now" link at saskpolytech.ca/international. For information on how to complete this form, visit: saskpolytech.ca/international/application-guide.

Online application fee = \$150 CAD

What else do I need to do?

Email colour PDF files of your scanned educational documents (transcripts, certificates and mark sheets) to internationaldocuments@saskpolytech.ca.

Note: If your transcripts are in a language other than English, you must submit translated documents. We will verify their validity. If you need to have your documents translated into English, we recommend you contact the Association of Translators and Interpreters of Saskatchewan. Visit atisask.ca.

What happens next?

1

Upon receipt of your application, you will receive by email your Saskatchewan Polytechnic identification number and instructions on how to log in to your Saskatchewan Polytechnic account. All email communications will be sent through your Saskatchewan Polytechnic email account unless you choose to automatically forward it to your personal email account. (1 - 3 business days)

2

If you are accepted into your program, you will receive a notification from Saskatchewan Polytechnic letting you know your start date, tuition fees and other costs (such as books, supplies and students' association fee). (around 15 business days)

3

In your acceptance notification, we will ask you to pay a non-refundable \$10,000 tuition deposit within 30 days of the time and date your acceptance letter was posted on your mySaskPolytech account. This will hold your spot in the program. Please review the full Tuition and Fees Procedure #1214 at saskpolytech.ca/tuition.

4

Once you have your acceptance letter and tuition deposit receipt, you can apply for your study permit through Immigration, Refugees and Citizenship Canada (IRCC). Visit Canada.ca.

5

Orientation for the September intake begins a week prior to your program start date for the majority of international students. Check saskpolytech.ca/welcome for more information.

School of Business

Business skills give you a competitive edge — wherever you're steering your career.

Saskatchewan Polytechnic's Business students are tomorrow's accountants, financial officers, marketing managers, insurance brokers, human resources specialists, executive assistants and entrepreneurs. Sample career titles

Business Diploma

Students may exit after Year 1 of the two-year diploma program with the Business certificate.

Accountancy

Location: Moose Jaw, Saskatoon, distance learning

Duration: 64 weeks

Accounting is often called the language of business. Those who speak the language are in demand in today's global economy. Saskatchewan Polytechnic's Business Accountancy program provides a practical focus to specialized training in the accounting field. On graduation, you will receive advanced standing towards Canada's professional accounting designation—Chartered Professional Accountant (CPA). And having the right credentials is essential for building an upwardly mobile career as an accountant, auditor or financial analyst.

Grade 12 or successful completion of at least 15 credit units from Year 1 of this program (Business certificate).

Staff Accountant
Tax Auditor
Accounting Technician

Financial Services

Location: Moose Jaw, some distance learning

Duration: 64 weeks

The financial services industry is evolving to meet the demands of a more diverse client base. That's creating exciting new career opportunities for future generations. Our Business Financial Services program is designed to meet actual marketplace needs as identified by our financial services advisory board in conjunction with the Canadian Securities Institute. That means your education matches evolving industry needs, which ensures you're ready to jump into the workforce as a management trainee upon graduation.

Grade 12 or successful completion of at least 15 credit units from Year 1 of this program (Business certificate).

Financial Advisor
Account Manager
Small Business Advisor

Human Resources

Location: Moose Jaw, distance learning

Duration: 64 weeks

No matter how high-tech the business, success or failure ultimately comes down to one critical asset—people. All organizations need trained professionals who know how to recruit, train, compensate, motivate and retain employees. Saskatchewan Polytechnic's Business Human Resources program provides the broad-based training you need to work in any sector, from health care to manufacturing. Build a career as an HR manager, recruiter, labour relations consultant, compensation analyst, training coordinator, organizational developer or benefits administrator.

Grade 12 or successful completion of at least 15 credit units from Year 1 of this program (Business certificate).

Human Resources Manager
Human Resources Consultant
Payroll Administrator

Insurance

Location: Moose Jaw, some distance learning

Duration: 64 weeks

It takes a unique combination of people skills and business savvy to succeed in the insurance industry. Individuals, businesses, farms, charities, government agencies: all need to manage risk and protect against loss; all turn to insurance professionals for guidance. Saskatchewan Polytechnic's Business Insurance program combines the knowledge and skills of a business professional with courses specifically related to the property and casualty insurance industry. At the end of the program, you're ready to launch your career as a broker, agent, adjuster or underwriter.

Grade 12 or successful completion of at least 15 credit units from Year 1 of this program (Business certificate).

Insurance Underwriter
Insurance Clerk
Insurance Broker

Management

Location: Moose Jaw, Prince Albert, distance learning

Duration: 64 weeks

In a competitive business environment, strong management skills give you an edge in winning the best positions and promotions. Managers are vital to any successful enterprise. The best ones are equal parts problem solvers, organizers, communicators and team leaders. Saskatchewan Polytechnic's Business Management program helps you hone your natural abilities, while providing specialized knowledge and skills. On graduation, you'll have a choice of career paths—administrative clerk, financial officer, management trainee, merchandising manager and more.

Grade 12 or successful completion of at least 15 credit units from Year 1 of this program (Business certificate).

Contract Administrator
Administrative Coordinator
Financial Officer

Marketing

Location: Moose Jaw, Saskatoon some distance learning

Duration: 64 weeks

Marketing is one of the most multi-faceted and exciting careers in business today. It can involve everything from product research and development to pricing, distribution and promotion. If you have the energy and ideas, the Business Marketing program can provide the knowledge and skills to get your career started as a marketing coordinator, assistant or representative in the retail, tourism, entertainment, technology, health, education, non-profit, industrial or financial sector.

Grade 12 or successful completion of at least 15 credit units from Year 1 of this program (Business certificate).

Plumbing and Pipefitting – applied certificate**Location:** Regina, Saskatoon**Duration:** 17 weeks

Today's steamfitters and pipefitters work in many sectors, including process pipelines, renewable and nuclear energy, mining, petrochemical, oil and gas and pulp and paper. Advances in plumbing and related systems require plumbers to stay current and specialize in different aspects of the trade. Plumbers install, maintain and repair plumbing fixtures, potable and non-potable water piping systems, water/steam heating systems, natural gas and propane piping systems. Saskatchewan Polytechnic's program directly aligns with the apprenticeship training partnership for both trades.

Grade 11.

Plumber

Pipefitter

Refrigeration and Air Conditioning – certificate**Location:** Saskatoon**Duration:** 34 weeks

Refrigeration and air conditioning is a specialized trade that plays a role in just about every sector of our economy. The Refrigeration and Air Conditioning program prepares you to install, commission and service commercial and industrial refrigeration and air conditioning equipment. It also gives you good insight into domestic refrigeration systems. Training on real refrigeration systems ensures you're ready to tackle the everyday challenges you'll find on the job. Trade time and academic credit are available for grads who find employment in the trade and register as apprentices.

Grade 12 with any 30 level math. Minimum 60% overall average.

Refrigeration and Air Conditioning Mechanic

School of Health Sciences

Canada's complex health care system, aging population and evolving medical technologies all add up to growing demand for skilled health-care workers.

Health careers demand accuracy, attention to detail, manual dexterity, self-motivation, organizational skills and empathy. Saskatchewan Polytechnic grads are answering that call. Some work as medical laboratory technologists, dental hygienists or paramedics. Others immerse themselves in mental health and addictions counselling, therapeutic recreation programming or health information management. The School of Health Sciences offers a host of career options from which to choose.

 saskpolytech.ca/healthsciences

Health Information Management – diploma

Location: distance learning (see webpage for details)

Duration: 71 weeks

Health Information Management (HIM) specialists are integral members of health care teams. Their skills in data collection, analysis and safeguarding of health information are vital to providing quality patient care and in quality improvement initiatives. HIM's also plan information systems, develop health policy and identify current and future information needs. They work in hospitals, community clinics, long-term care facilities, government agencies, educational institutions, health privacy settings, law offices, insurance agencies and pharmaceutical companies. If you are a detail-oriented person with an interest in health care analytics, Saskatchewan Polytechnic's HIM program could be a great career fit for you.

Grade 12 with a minimum overall average of 70% in the following subjects: English Language Arts A30, English Language Arts B30, Foundations of Math 30 or Pre-Calculus 30, one 30-level science (one of Biology, Chemistry or Physics). Minimum keyboarding speed of 30 words per minute with 90% accuracy (5-minute testing report to be submitted with transcripts). (Testing is available through a Saskatchewan Polytechnic Test Centre).

Health Information Management Practitioner
Information Management Technician
Health Information Analyst

Medical Laboratory Assistant – applied certificate

Location: Saskatoon

Duration: 27 weeks

Lab work plays a crucial role in modern health care, which makes medical laboratory assistants an important part of the health care team. The Medical Laboratory Assistant program uses classroom instruction, practical labs and clinical experience to provide knowledge and skill development in collecting, processing and preparing patient specimens. Saskatchewan Polytechnic grads who successfully write the Canadian Society for Medical Laboratory Science certification exam are recognized nationally—meaning you can work anywhere in Canada. You might work in a hospital, medical office or walk-in clinic, or in a research or pharmaceutical lab or veterinary office.

Grade 12 with a minimum grade of 70% in each of English Language Arts A30, English Language Arts B30, Foundations of Math 20 or Foundations of Math 30 or Pre-Calculus 30, Health Science 20 or Biology 30, and Physical Science 20 or Chemistry 30. 45 words per minute keyboarding speed with 98% accuracy (5-minute testing report to be submitted with transcripts); (Testing is available through Saskatchewan Polytechnic Testing Services). A completed Keyboarding Test Results Form must be submitted to Registration Services.

Laboratory Assistant (multidisciplinary)
Senior Laboratory Assistant

Medical Laboratory Technology – diploma

Location: Saskatoon

Duration: 92 weeks

Medical laboratory technologists provide an important link between leading-edge lab science and individualized patient care. The Medical Laboratory Technology program is nationally accredited and provides knowledge and skill development in performing and evaluating a broad spectrum of laboratory tests. Saskatchewan Polytechnic grads who successfully write the Canadian Society for Medical Laboratory Science certification exam are recognized nationally—meaning you can work anywhere in Canada. Medical laboratory technologists work in hospitals, research labs, veterinary clinics, public and private laboratories, scientific companies and educational institutions.

Grade 12 with a minimum grade of 70% in English Language Arts A30, English Language Arts B30, Foundations of Math 30 or Pre-Calculus 30, Physical Science 20, Chemistry 30 and Biology 30. All applicants are required to submit an Essay of Traits and Awareness Questionnaire by March 1. Applicants moving to Phase 2 of the selection process are required to submit the Situational Assessment. The cost of the Situational Assessment is your responsibility.

Medical Laboratory Technologist (I/II/III)
Medical Laboratory Technologist Supervisor

Medical Radiologic Technology – diploma

Location: Saskatoon

Duration: 90 weeks

Medical radiologic technology is a balance of cutting-edge imaging technology and hands-on patient care. The Medical Radiologic Technology program is a nationally accredited two-year program. You will learn to apply the principles of science and medicine to medical radiography, and to develop technical competency in the techniques and equipment used in diagnostic imaging departments. Graduates are eligible to write the Canadian Association of Medical Radiation Technologists (CAMRT) national certification exam. Once certified, you can work anywhere in Canada. Medical Radiation Technologists work in hospitals and private medical clinics as well as at scientific companies and educational institutions.

Grade 12 with a minimum grade of 70% in English Language Arts A30, English Language Arts B30, Foundations of Math 30 or Pre-Calculus 30, Physical Science 20, Chemistry 30 and Biology 30. All applicants are required to submit an Essay of Traits and Awareness Questionnaire by March 1. Applicants moving to Phase 2 of the selection process are required to submit the Situational Assessment. The cost of the Situational Assessment is your responsibility.

Medical Radiation Technologist

Pharmacy Technician – diploma**Location:** Saskatoon**Duration:** 73 weeks

Advances in pharmaceuticals, more educated consumers and an aging population are contributing to growing demand for pharmacy technicians. Saskatchewan Polytechnic's Pharmacy Technician program is nationally accredited and applies classroom theory to lab work and clinical experience in both community and hospital practice. You will develop the knowledge and skills to prepare medications for patients and assist pharmacists with the management and operation of a pharmacy. Graduates of the program are eligible to write the national examination provided by the Pharmacy Examining Board of Canada (PEBC) and, if successful, register to become a pharmacy technician in their province. Career opportunities are diverse and include jobs in community pharmacies, hospital pharmacies, long-term care facilities, home health care, pharmaceutical sales, manufacturing and insurance.

Grade 12 with a minimum of 70% in each of the following subjects: Pre-Calculus 30 or Calculus 30, Biology 30 and Chemistry 30. Minimum overall average of 65%. Minimum keyboarding speed of 35 words per minute with 95% accuracy in a 5-minute test period. (Testing is available through Saskatchewan Polytechnic Testing Services).

Pharmacy Assistant
Pharmacy Technician

Phlebotomy – applied certificate**Location:** Saskatoon, online/
distance learning**Duration:** 28 weeks

Phlebotomists work directly with other health care providers and patients, and in laboratory settings. You will collect blood from patients, manage and handle specimens, and perform the associated data entry. It's a job that requires good people and communication skills, attention to detail, a professional yet caring attitude, and a commitment to teamwork and excellence. Phlebotomists are more and more in demand in many areas. Jobs are available in hospitals, community clinics and medical offices.

Grade 12 with an overall average of 60% with English Language Arts A30, English Language Arts B30, Foundations of Math 20 or Foundations of Math 30 or Pre-Calculus 30, Health Science 20 or Biology 30, and Physical Science 20 or Chemistry 30. 45 words per minute keyboarding speed with 98% accuracy (5-minute testing report to be submitted with transcripts) (Testing is available through Saskatchewan Polytechnic Test Centres. A completed Keyboarding Test Results form must be submitted to Registration Services).

Phlebotomist

Paramedic programs

Primary Care Paramedic – certificate**Location:** Regina, Saskatoon**Duration:** 48 weeks

As first on the scene to deliver emergency care, paramedics can make the difference between life and death. The Primary Care Paramedic program is nationally accredited and emphasizes an authentic hands-on training model augmented by hospital and ambulance practicums. Because the Primary Care Paramedic program is designed with input from industry employers, our curriculum matches opportunities and expectations in the actual workplace. There are career opportunities in emergency medical services, fire protection, industrial and mining sectors and in the military.

Grade 12 with a minimum overall average of 60% in the following four courses: English Language Arts A30, English Language Arts B30, one of Biology 30 or Chemistry 30, and one of Workplace and Apprenticeship Math 30 or Foundations of Math 30 or Pre-Calculus 30. (Previous Saskatchewan mathematics Math A30 will also be accepted). Standard First Aid is required prior to the start of the program and must be current to the start of the program. CPR "C" AED or equivalent is required prior to the start of the program and must be current to the start of the program.

Safety Officer
Emergency Medical Technician
Firefighter (Fire Services often require PCP for employment and may provide fire training and a career as a firefighter for qualified PCPs)

Advanced Care Paramedic – diploma**Location:** Regina, Saskatoon**Duration:** 71 weeks

The Advanced Care Paramedic diploma is a great way to upgrade your skills ... and your earning power. The program is nationally accredited and provides you with the skills and knowledge to work within emergency medical services and in settings beyond the traditional paramedic environment, including ground, helicopter or fixed wing air ambulance services and on collaborative health teams. ACPs also work in emergency rooms and industrial settings, support patients in home care and provide public health education in the community.

Primary Care Paramedic certification from an accredited program or equivalent. Registered as a PCP of the 2011 National Occupational Competency Profile for Paramedics training (Paramedic Association of Canada, 2011). International Trauma Life Support (ITLS) Provider certificate. Basic Life Support Provider or equivalent.

Facility Paramedic
Flight Medic
Advanced Care Paramedic

Community Paramedic – advanced certificate**Location:** Saskatoon, online/
distance learning**Duration:** 30 weeks

Community paramedics use their mobile care response skills to bring services to members of the community who may not be able to access available services otherwise. They work collaboratively with health care professionals in the community to provide faster, more efficient health care services. Community paramedic is a rewarding career with an expanding range of job opportunities. Graduates of the program may be employed by ambulance services or health authorities. Jobs can include opportunities in collaborative emergency centres, mobile health units and community services.

Current Paramedic Licence. Primary Care Paramedic or Advanced Care Paramedic certification from an accredited program or equivalent. Verification of 2011 National Occupational Competency Profile for Paramedics training (Paramedic Association of Canada, 2011). Minimum two years work-related experience (you must provide verification of your work experience).

Duration: 74 weeks

Information technology is a constantly evolving and innovating field. Saskatchewan Polytechnic's Computer Systems Technology diploma program will help you gain skills in many computer related disciplines and prepare you for an exciting career in the industry. Launch a career in interactive web development, mobile applications, systems analysis and design, local area network administration, program software and database solutions, hardware installation and configuration and more.

Grade 12 with a minimum of 70% in one of Physics 30, Chemistry 30 or Computer Science 30; minimum of 60% in Foundations of Math 30 or Pre-Calculus 30. Minimum overall average of 65%.

Mobile Application Programmer
Computer Programmer
Network Administrator

Cyber Security – post-graduate certificate

Location: Saskatoon
Duration: 40 Weeks

The Cyber Security post-graduate certificate will prepare students for the challenges of identifying network and computer system vulnerabilities, conducting ethical hacks to determine system risk and designing organizational cyber security plans. Cyber security is everyone's business, and developing current practical knowledge is important in this digital growth industry.

A conferred bachelor's degree in the area of Information and Communication Technology from a recognized post-secondary institution. Note: Applicants should have previous networking training.

Systems Security Analyst
Information Systems Manager

Graphic Communications – diploma

Location: Regina
Duration: 68 weeks

Graphic communications in the digital age is evolving in new directions ... and creating new opportunities. The Graphic Communications diploma program provides the conceptual and technical expertise necessary to build a career in the industry. The ability to choose a specialty – graphic design or printing – will allow you to follow your passion. You'll discover job opportunities in advertising agencies, commercial print shops, design firms, publishing agencies and more. Visit saskpolytech.ca to learn about the Canadian Printing Industry Association scholarship.

Grade 12.

Web Designer
Photographer
Graphic Designer

Program name and details	Overview	Admission requirements	Sample career titles
<p>Interactive Design and Technology – diploma Location: Regina, Saskatoon Duration: 69 weeks. New intake every second year on odd-numbered years.</p> 	<p>Whether you're interested in web design or interactive media, career opportunities in new media are growing by leaps and bounds. Why not get paid for doing what you love? Develop your creative talent in graphic, web and interactive design. Learn to create websites, design graphics, develop interactive media, create digital presentations and more. Hone your skills in web and mobile technologies. Explore interests in photography, video, audio and 2D and 3D animation. Saskatchewan Polytechnic's Interactive Design and Technology program provides a multi-faceted skill set on progressive media topics and software.</p>	<p>Grade 12. Basic computer literacy recommended.</p>	<p>Media Developer Web Designer Graphic Designer</p>
<p>Library Clerk – applied certificate Location: Online/distance Duration: 16 weeks (program starts September and January each year)</p> 	<p>Library clerks work directly with library technicians, librarians and library users. They may be responsible for the circulation of library materials, sorting and shelving library materials, clerical functions and providing general library information to users.</p>	<p>Grade 12.</p>	<p>Library Circulation Clerk Library Page Library Shelving Clerk</p>
<p>Library and Information Technology – diploma Location: Saskatoon Duration: 72 weeks. New intake every two years on even-numbered years</p> 	<p>Whether managing resource centres or administering small libraries, library and information technologists are point people on the information highway. Library and Information Technology graduates enjoy a range of career choices in school libraries, university and college libraries, resource centres, museums, public libraries, government departments, hospitals, law firms, consulting firms and more. You might start as a cataloguing technician or research assistant, then move up to supervisory positions.</p>	<p>Grade 12. Minimum 60% average in English Language Arts A30 and B30.</p>	<p>Library Clerk Library Assistant Library Technician</p>
<p>Media Production – diploma Location: Saskatoon Duration: 68-71 weeks</p> 	<p>Media is the focal point of information transfer in our society. Media production specialists use this powerful tool to educate, influence and inspire. The Media Production diploma program provides the basics: learn how to transform creative ideas into a variety of media formats, operate production equipment, prepare materials and produce media programs. Students then build on these skills with hands-on, in-depth training. Possible career paths include camera operators, media technicians, copywriters, editors, producers and more.</p>	<p>Grade 12 with English Language Arts A30 and English Language Arts B30. Basic computer literacy (word processing and spreadsheets) strongly recommended.</p>	<p>Producer / Director Camera Operator Recording Technician</p>
<p>Software Developer – post-graduate certificate Location: Saskatoon Duration: 38 Weeks</p> 	<p>This program will prepare you for the challenges of developing software products and web applications for clients. Software Developer is designed to expand your current knowledge and skills into the fields of technology, computer applications, data communications, data design and software analysis and design.</p>	<p>A conferred 4-year bachelor's degree in Science or Applied Science from a recognized post-secondary institution.</p>	<p>Software Engineer Mobile Developer Web Developer</p>
<p>Technology Management – post-graduate certificate Location: Moose Jaw Duration: 32 weeks</p> 	<p>The post-graduate certificate in Technology Management will prepare you for the challenges of facilitating business operations and strategy through the provision of technology infrastructure and systems development. You will study the role technology plays in enabling business strategy and vision. At the end of your studies, you will have the option of pursuing a work-integrated learning experience that connects you with industry and gives you real world experience in the exciting world of technology.</p>	<p>A conferred bachelor's degree in Information and Communications Technology from a recognized post-secondary institution.</p>	<p>Computer Projects Manager Director of Technology Management Information Technology Integration Manager</p>
<p>Web Site Design and Development – applied certificate Location: Online/distance Duration: 28 weeks</p> 	<p>Public agencies and private companies, big box brands and mom & pops – they all have a website (or need a better website). You will learn to build easy-to-navigate websites, design interactive content, set up and customize a web development environment, develop security protocols and more. It's a great way to build your skill set ... or take your career in an exciting new direction. Graduates are in demand as employees and independent contractors.</p>	<p>Grade 12. Basic computer literacy recommended.</p>	<p>Web Designer Webmaster Web Technician</p>

School of Mining, Energy and Manufacturing

You're analytical, have an eye for detail and are at home in a lab ... or maybe you thrive in a creative environment, the outdoors or working with machinery.

Careers in mining, energy and manufacturing require a diversity of skills. Our school's programs train students in everything from engineering technology, welding and industrial mechanics to electronics and mining.

Program name and details	Overview	Admission requirements	Sample career titles
<p>Building Systems Technician – certificate Location: Regina Duration: 40 weeks</p> <p> </p>	<p>Commercial and institutional buildings are multi-million-dollar investments. There is a high demand for trained technicians to ensure safe, efficient, 24/7 operation. Modern buildings integrate a variety of technologically advanced systems—heating, ventilation, plumbing, electrical, elevators and more. Building systems technicians oversee daily maintenance, troubleshoot problems and work with various tradespeople to ensure smooth building operations, day-in and day-out.</p>	<p>Grade 12 with a minimum of 60% in Workplace and Apprenticeship Math 30 or 60% in Foundations of Math 20 or 60% in Pre-Calculus 20.</p>	<p>Maintenance Manager Property Administrator Heating and Air Conditioning Mechanic</p>
<p>Chemical Technology – diploma Location: Saskatoon Duration: 70 weeks</p> <p>  </p>	<p>The Chemical Technology program allows students to develop knowledge and skills in chemical analysis and chemical plant operation. The emphasis on hands-on learning prepares you to work in commercial, industrial or government labs, in technical sales, and in industrial settings. Grads have the option of moving directly into the workforce or using program articulation agreements with various universities to ladder into a degree.</p>	<p>Grade 12. Minimum 60% in each of English Language Arts A30, English Language Arts B30, Chemistry 30 and Pre-Calculus 30.</p>	<p>Chemical Technologist Laboratory Technologist/Technician Quality Control/Assurance Technologist/Technician</p>
<p>Computer Engineering Technology – diploma Location: Moose Jaw Duration: 76 weeks (5 academic semesters and 3 paid co-operative education work terms)</p> <p>   </p>	<p>If you're a creative thinker who likes playing with technology, becoming a computer engineering technologist offers great possibilities. The Computer Engineering Technology program lets you alternate classroom study with work terms to get a hands-on learning experience. Grads enjoy a choice of career paths—network administrator, systems coordinator or technical/systems analyst. You might work in sales, R&D or customer support in large companies, institutions and manufacturing plants.</p>	<p>Grade 12. Minimum of 60% in Pre-Calculus 30.</p>	<p>Computer Systems Analyst Computer Engineering Technologist Computer Network Technician</p>

Program name and details	Overview	Admission requirements	Sample career titles
<p>Design and Manufacturing Engineering Technology (formerly CAD/CAM Engineering Technology) – diploma Location: Saskatoon Duration: 80 weeks</p> 	<p>As a design and manufacturing engineering technologist, you'll help turn great ideas into practical plans. It's a career that applies science to mechanical design, so it helps to have an analytical mind and good math skills. You'll be involved in everything from design and drafting, to fabrication, 3D printing and prototype development. The Design and Manufacturing Engineering Technology program will allow you to develop the knowledge and skills you need to put computer and engineering principles to work.</p>	<p>Grade 12 with a minimum of 65% in Pre-Calculus 30* and a minimum of 70% in Physics 30.</p>	<p>Mechanical Engineering Technologist CAD/CAM Engineering Technologist Manufacturing Technologist</p>
<p>Electrical Engineering Technology – diploma Location: Moose Jaw Duration: 76 weeks (5 academic semesters and 3 paid co-operative education work terms)</p> 	<p>Electrical systems are the backbone of modern industry and power generation utilities. The increasing complexity of the field is putting a high premium on skilled electrical engineering technologists. Electrical engineering technologists are more in demand today than ever before. They have the specialized skills our society needs to keep the power on—literally. Career opportunities include jobs with consulting engineering firms, power generation utilities, manufacturing firms, petroleum or mining firms and more.</p>	<p>Grade 12. Physics 30. Minimum of 60% in Pre-Calculus 30.</p>	<p>Electrical Engineering Technologist Electrical Generating Systems Technician</p>
<p>Electronic Systems Engineering Technology – diploma Location: Saskatoon Duration: 74 weeks</p> 	<p>The demand for Electronic Systems Engineering Technology is growing as individuals with specialized knowledge and skills are required to work with complex electronic systems. They're the ones who integrate technological innovation into our everyday lives. Electronic systems engineering technologists are creative team players who like a good challenge. Opportunities exist in the fields of applied research, automated control systems, microprocessor systems, communication systems and electronic product development.</p>	<p>Grade 12. Physics 30. Minimum of 60% in Pre-Calculus 30.</p>	<p>Automation Controls Technologist Communications Technologist Electronics Design Technologist</p>
<p>Engineering Design and Drafting Technology – diploma Location: Moose Jaw Duration: 76 weeks (5 academic semesters and 3 paid co-operative education work terms)</p> 	<p>Engineering design and drafting technologists perform computerized design and drafting functions in industrial or engineering settings. It's a career path that requires practical thinkers, an eye for detail and the ability to visualize how things work and assemble ideas into three-dimensional space. Engineering design and drafting technologists create engineering designs, drawings and related technical information. You might work independently, but you are more likely to be part of a multidisciplinary team.</p>	<p>Grade 12. Pre-Calculus 30.</p>	<p>Project Manager CAD Technologist Design and Drafting Technologist</p>
<p>Fabricator-Welder – certificate Location: Regina, Saskatoon Duration: 34 weeks</p> 	<p>Fabricator-Welder is a dual trade program that prepares you to work in either the welding or metal fabrication trade. Graduates will receive SATCC credit in the trade of their choice for Level 1 Metal Fabrication and Level 1 Welding (800 hrs in the trade of their choice). You could be doing custom fabrication, construction, mass production and maintenance in petroleum, mining, forestry, railway and other industries. Trade time and academic credit available for grads who find employment in the trade and register as apprentices.</p>	<p>Grade 12 with Foundations of Math 20 or Workplace and Apprenticeship Math 20 or Pre-Calculus 20.</p>	<p>Structural Metal Platework Fabricator Welder</p>
<p>Industrial Mechanics – certificate Location: Prince Albert, Saskatoon Duration: 32 weeks</p> 	<p>There's a saying among industrial mechanics: "If it doesn't have tires, we'll fix it." It's a good description of a career with so many possibilities working on "stationary" industrial equipment. Graduates of the Industrial Mechanics program work at potash and uranium operations, oil refineries, manufacturing plants, grain handling facilities, power plants and more. Trade time and academic credit available for grads who find employment in the trade and register as apprentices.</p>	<p>Grade 12 with Foundations of Math 20 or Workplace and Apprenticeship Math 20 or Pre-Calculus 20.</p>	<p>Construction Millwright Industrial Mechanic</p>

Program name and details

Overview

Admission requirements

Sample career titles

Innovative Manufacturing – diploma

Location: Regina
Duration: 76 weeks

Saskatchewan's growing manufacturing sector needs skilled workers. With a diploma in Innovative Manufacturing Technology, you will be prepared to help meet these needs. The program will give you knowledge in a wide range of manufacturing skills, such as mechanical and CAD/CAM technologies, welding, machining, project management and industrial design. Graduates may find employment in various sectors including industrial, agricultural, mining, textile, forestry and food processing.

Grade 12 with a minimum 60% in Foundations of Mathematics 20 or Pre-Calculus 20 or Workplace and Apprenticeship Math 30.

Industrial Engineering Technologist
Quality Assurance Technologist
CAD/CAM Programmer

Instrumentation Engineering Technology – diploma

Location: Moose Jaw
Duration: 72 weeks (5 academic semesters and 3 paid co-operative education work terms)

Industrial processes have become so complex that it takes the specialized skills of instrumentation engineering technologists just to look after the instruments used for measurement and control. Instrumentation engineering technologists not only have a knack for fixing things, they have the ability to apply math, science and physics to solve complex measurement and control problems. They're employed in virtually every sector, with most opportunities concentrated in mining, oil and gas recovery and transmission, oil refining and a variety of fertilizer plants.

Grade 12 with Physics 30 and a minimum 60% in Pre-Calculus 30.

Instrumentation Engineering Technologist
Control Specialist
Instrumentation and Control Technician

Machinist – certificate

Location: Regina, Saskatoon
Duration: 34 weeks

From the plastic parts in your cell phone to the tires on your car, machinists make the molds and dies for manufacturing a wide variety of items. Everything made of steel, aluminum and plastic is made directly from a machine shop. The Machinist program provides a solid foundation in basic machining skills. When you graduate, you'll be ready for work in custom machine shops, computer machine tool operation firms and large and small shops making parts and repairs. Trade time and academic credit available for grads who find employment in the trade and register as apprentices.

Grade 10.

CNC Machinist
Tool & Die Maker

Mechanical Engineering Technology – diploma

Location: Saskatoon
Duration: 78 weeks

Mechanical engineering technologists (METs) ensure that the machines and systems our society depends on work the way they're supposed to. A MET may be involved in many aspects of the design, analysis, testing and maintenance of equipment across a broad spectrum of industries. You can also find opportunities in instrumentation and process monitoring, heating and ventilation systems, and resource management and exploitation, as well as industrial sales. As a MET, you will have the skills to work independently or as part of a team to ensure projects are successfully completed.

Grade 12 with a minimum of 65% in Pre-Calculus 30 and 70% in Physics 30.

Mechanical Engineering Technologist
Design and Drafting Technologist
Commercial / Industrial HVAC-R Salesperson

Mining Engineering Technology – diploma

Location: Saskatoon
Duration: 68 weeks

Mining is one of the fastest-growing sectors in Saskatchewan. As a mining engineering technologist, you'll be part of a team dedicated to ensuring smooth, efficient mine operation. You might work in mine surveying for surface or underground operations, mine drafting, mine ventilation monitoring, ground control monitoring or quality control. It's a career path that offers good pay and opportunities for advancement.

Grade 12. Minimum 60% in Pre-Calculus 30. Physics 30 is recommended but not required.

Mining Engineering Technologist
Mining Survey Technologist

Power Engineering Technician – certificate

Location: Regina
Duration: 36 Weeks

Power engineering technicians help keep power plants running safely and efficiently. A shortage of certified technicians means job opportunities have never been better. You could work in the oil patch, mining, manufacturing, energy, health and other industries. It's a physical job that requires manual dexterity and good vision, as well as problem-solving skills and a knack for working with machinery.

Grade 12 with Foundations of Math 30 or Pre-Calculus 30. Minimum 65% overall average.

Power Engineers or Process Operators

Program name and details	Overview	Admission requirements	Sample career titles
Power Engineering Technology – diploma Location: Saskatoon Duration: 72 weeks 	Power engineering is all about keeping the engines of industry running day and night. Power engineering technologists and technicians use their specialized knowledge and skills to control and maintain large, complex power and process systems. There are job opportunities in a wide range of facilities, including electrical power generation plants, light and heavy industry, refineries and public and commercial buildings.	Grade 12 with Foundations of Math 30 or Pre-Calculus 30. Minimum 65% overall average.	Steam Engineer Steam Plant Operator Panel Operator
Welding – certificate Location: Moose Jaw, Prince Albert, Regina, Saskatoon Duration: 34 weeks 	Skilled welders are in demand in just about every industry, making it a career with great mobility. Saskatchewan Polytechnic's Welding program provides the foundational knowledge and skills you need to operate welding equipment and perform basic welding operations. Grads are in demand in Saskatchewan's oil and gas, mining, farming, manufacturing and construction sectors. Trade time and academic credit available for grads who find employment in the trade and register as apprentices.	Grade 10.	Welder Implement Assembler

School of Natural Resources and Built Environment

If you want to play a key role in managing our natural environment or in shaping our built environment, Saskatchewan Polytechnic can help.

The School of Natural Resources and Built Environment will prepare you for a career as a forestry technician, park interpreter, environmental protection officer, water resource manager, geographic information science specialist, engineering technologist in civil, environmental or water resources fields and more.

 saskpolytech.ca/NRBE

Program name and details	Overview	Admission requirements	Sample career titles
BioScience Technology – diploma Location: Saskatoon Duration: 76 weeks 	From safer food production to life-saving new medicines, biotechnologists help find solutions to some of society's toughest challenges. The BioScience Technology program uses a practical, hands-on style of learning to prepare you for a career in medical research, animal and plant sciences, agriculture, quality control, molecular and micro-biology, environmental science and more. Grads have the option of moving directly into the workforce or using their diploma to ladder into a university degree.	Grade 12 with a minimum 65% in Biology 30, Chemistry 30 and Pre-Calculus 30. Minimum 65% combined average in English Language Arts A30 and B30. To comply with safety regulations, students who wear contact lenses must have a pair of prescription glasses to wear in the labs.	Laboratory Manager Quality Assurance Technologist Research Technologist

Program name and details

Overview

Admission requirements

Sample career titles

Civil Engineering Technologies (Construction option or Water Resources option) – diploma
Location: Moose Jaw
Duration: 76 weeks (5 academic semesters and 2 paid co-operative work terms)

As municipalities grow, so does the demand for people to build and maintain their infrastructure and resources. In Civil Engineering Technologies, you will spend your first two semesters learning skills common to civil construction and water resources. Then you will move into one of two specialties.

- **Construction option:** Wherever a building, bridge, road or other structure is being built, you are sure to find that civil engineering technologists are part of the team building it.
- **Water Resources option:** Water resource engineering technologists play a role in ensuring a community has safe water supply or assessing and minimizing the impacts of floods or droughts on a watershed.

Grade 12 with Pre-Calculus 30.

Project Coordinator
 Urban Planner
 Civil Technologist I/II
 Water Resources Technologist I/II
 Construction Inspector/Estimator

Environmental Engineering Technology – diploma
Location: Moose Jaw
Duration: 80 weeks (5 academic semesters and 3 paid co-operative education work terms)

When it comes to monitoring the impact of industry and urbanization on our environment, environmental engineering technologists are at ground zero. Environmental engineering technologists are there to monitor, assess and minimize the impact of urbanization on the natural world, ensuring generations to follow have access to all we enjoy today. Career opportunities are found in private industry, engineering and environmental consulting, and in government agencies.

Grade 12 with Pre-Calculus 30.

Project Coordinator
 Environmental Technologist I/II
 Environmental Site Assessor

Geographic Information Science – certificate
Location: Prince Albert
Duration: 32 weeks

By linking maps to data, geographic information science (GIS) has become an indispensable tool in resource management—and that has opened the door to exciting new career opportunities for skilled GIS analysts. GIS uses modern technology to link maps with database tables for use in managing wildlife, fisheries, forestry and more. It's a career that demands computer literacy and problem-solving skills. It is also an emerging field with growing job prospects. You could work for a natural resources company, First Nations company/community, environmental consulting group or government or municipal agency. GIS graduates have opportunities to ladder into degree programs.

Grade 12 with a minimum 65% average in English Language Arts A30 and B30 combined. Minimum 60% in Workplace and Apprenticeship Math 30 or Foundations of Math 30 or Pre-Calculus 30. Computer literacy recommended.

GIS Technician
 GIS Analyst
 GIS Technologist

Integrated Resource Management – diploma
Location: Prince Albert
Duration: 70 weeks

It takes skill and a passion for the natural environment to manage Saskatchewan's vast fisheries, forests, wildlife and parks resources. Integrated resource management practitioners have that skill—and the desire to use it. Integrated resource management practitioners are analytic thinkers who combine a knack for science with a love for the outdoors. It's an excellent career choice if you want a hands-on role in environmental stewardship. Your first job might be as a forestry worker, park interpreter, fisheries or wildlife technician, rare plant biologist or entry-level supervisor. You could also work for an environmental consulting group, government agency or natural resources company. If you're interested in going further, use your diploma to ladder into a degree program.

Grade 12 with a minimum 65% average in English Language Arts A30 and B30 combined. Minimum 60% in Workplace and Apprenticeship Math 30 or Foundations of Math 30 or Pre-Calculus 30. It is recommended that students entering the program have basic skills in Microsoft Word and Excel.

Biological Technician
 Fish and Wildlife Technician
 Forestry Technician

Resource and Environmental Law – diploma
Location: Prince Albert
Duration: 70 weeks

Our province's natural resources are protected to ensure their long-term vitality. Resource and environmental law practitioners help ensure that protection is respected. Resource and environmental law practitioners are dedicated, detail-oriented people who excel at sifting through information and using the law to find solutions to tough challenges. Career opportunities are varied—work as a conservation officer, environmental protection officer or fishery, forestry or wildlife officer. You might work for a natural resources company or First Nations community. Transfer credit opportunities allow Resource and Environmental Law graduates to move into degree programs.

Grade 12 with a minimum 65% average in English Language Arts A30 and B30 combined. Minimum 60% in Workplace and Apprenticeship Math 30 or Foundations of Math 30 or Pre-Calculus 30. Clear Criminal Record Check. It is recommended that students entering the program have basic skills in Microsoft Word and Excel.

Enforcement Officer
 Conservation Officer
 Environmental Technician

Program name and details	Overview	Admission requirements	Sample career titles
Water and Wastewater Technician – certificate Location: Distance learning Duration: Self-paced up to five years 	Water and wastewater technicians work behind the scenes to ensure safe, reliable supplies of water. To protect the environment and ensure the safety of our water supplies and to treat and dispose of our wastes, Saskatchewan requires certified operators in public and private water and wastewater utilities. A water and wastewater technician certificate gives you the technical education to apply toward certification as an operator in municipal, industrial, agricultural and recreational utilities.	Grade 12.	Technical Sales Specialist Park Attendant Water and Wastewater Utility Operator

School of Nursing

Nursing is a compelling career choice — fulfilling work, great job prospects and a portable skill set.

You can choose to work in a hospital, community health centre, outpatient clinic, physician's office or with home care. Or you may prefer to specialize in health promotion, administration or research. Saskatchewan Polytechnic has been educating nurses for more than 50 years. With our nursing programs, we're preparing a new generation of nurses to meet the realities of modern health care delivery.

 saskpolytech.ca/nursing

Program name and details	Overview	Admission requirements	Sample career titles
Continuing Care Assistant – certificate Location: Prince Albert, Regina, Saskatoon, distance learning Duration: 32 weeks  	Shorter hospital stays, more outpatient treatment, an aging population, longer life expectancies—it all adds up to more jobs for continuing care assistants. The Continuing Care Assistant program provides the knowledge and skills you need to work with disabled, recovering and chronically and terminally ill people. Job opportunities are varied. You could work in a hospital, long-term care facility, private care home, integrated facility, supportive housing or special needs classroom.	Grade 12 or successful completion of fifteen (15) post-secondary credits from a recognized institution.	Continuing Care Assistant Special Care Aide Home Health Aide
Medical Device Reprocessing Technician – certificate of achievement Location: Distance learning Duration: 24 weeks 	Medical device reprocessing technicians operate and maintain a variety of sterilization equipment, such as instrument washers, sonic sinks, cart washers and steam autoclaves. This equipment is used to clean and disinfect surgical instrumentation and equipment for reuse according to standardized safety practices. They reassemble equipment and prepare packs of sterile supplies and instruments for delivery to hospital departments.	Grade 12.	Medical Device Reprocessing Technician

Program name and details

Overview

Admission requirements

Sample career titles

Practical Nursing – diploma Location: Prince Albert, Regina, Saskatoon, distance learning Duration: 76 weeks

Compassionate and dedicated, licensed practical nurses are integral members of the health-care team ... and their skills are in demand across Canada. Saskatchewan Polytechnic's Practical Nursing program combines classroom learning, high-tech simulation labs and clinical experience to prepare you for a career as a licensed practical nurse. As a graduate, you'll be eligible to apply for designation as a licensed practical nurse (LPN). LPNs work in a variety of settings, such as long-term care facilities, hospitals, physician's offices, home care agencies, schools, private nursing agencies and community health centres.

Grade 12 with a minimum overall average of 65% in the following five subjects: English Language Arts A30; English Language Arts B30; one of Foundations of Math 30, Pre-Calculus 30 or Workplace and Apprenticeship Math 30; one of Biology 30, Chemistry 30 or Physics 30; and one of Social Studies 30, History 30 or Native Studies 30.

Licensed Practical Nurse (LPN)

Psychiatric Nursing – advanced diploma Location: Regina, distance learning in second and third year Duration: 96 weeks (7 terms over 2.5 years)

If you want to play a role in advancing the mental health and well-being of individuals, families and communities, Saskatchewan Polytechnic's Psychiatric Nursing program will appeal to you. Psychiatric Nursing is a two-and-a-half-year advanced diploma program delivered through blended learning via on-campus classes, video conferencing, onsite labs and clinical practicums to help you transfer your skills into real world practice. Experienced faculty will help you link theory with practice to help clients with mental illness, psychiatric disorders and developmental and/or cognitive difficulties function at their maximum potential.

Grade 12 with a minimum overall average of 70% in the following five subjects: English Language Arts A30, English Language Arts B30, Foundations of Math 30 or Pre-Calculus 30, Biology 30 and Chemistry 30.

Registered Psychiatric Nurse (RPN)

Bachelor of Psychiatric Nursing – degree (degree completion) Location: Distance learning Duration: 2-2.5 years

The Bachelor of Psychiatric degree completion program is a flexible, distance learning opportunity designed for Registered Psychiatric Nurses. If you are interested in advancing your practice and career in psychiatric nursing, this program prepares you to assist clients with increasingly complex mental health needs and for careers in leadership, forensics (criminal justice system), education and research.

Saskatchewan Polytechnic Psychiatric Nursing diploma and active registration with good standing with the Registered Psychiatric Nurses Association of Saskatchewan or from the regulatory body where the applicant resides.

Registered Psychiatric Nurse

Saskatchewan Collaborative Bachelor of Science in Nursing – degree Offered jointly with the University of Regina. sasknursingdegree.ca Location: Regina, Saskatoon, North Battleford, some distance learning Duration: 3, 3.5 and 4 year options

The Saskatchewan Collaborative Bachelor of Science in Nursing program is offered jointly by Saskatchewan Polytechnic and the University of Regina. As a student, you'll begin to work directly with patients in Year 1. The program's innovative courses, clinical lab work, simulation learning and clinical practice education will prepare you for a rewarding career in health care. Accelerated options allow you to complete your degree in three or 3.5 years instead of four. Qualified LPNs and RPNs can complete the program in 24 months. See website for information on the After Degree Program and Bilingual option. As a graduate, you'll be eligible to write the national registration examination and become registered to practice as a registered nurse (RN). RNs find employment in hospitals as well as community settings, outpatient clinics, long-term care facilities and community and public health organizations.

Grade 12 with Biology 30, Chemistry 30, one of English Language Arts A30, Francais Franskaskois A30 or Francais Immersion 30, one of English Language Arts B30, Francais Franskaskois B30 or Francais Immersion 30, and one of Foundations of Math 30, Pre-Calculus 30 or Calculus 30. Students must have a minimum grade of 70% in each of the required courses. Please see website for acceptable substitutions and post-secondary admission criteria.

Registered Nurse (RN)

Collaborative Nurse Practitioner Program – degree (Master of Nursing) Offered jointly with the University of Regina. [sasknursingdegree.ca/ cnpp](http://sasknursingdegree.ca/cnpp) Location: Distance learning Duration: Two years as a full-time student or over four years part-time

Nurse practitioners (NPs) are autonomous practitioners who independently provide a full range of comprehensive and holistic health care services to clients, families and communities. NPs perform advanced health assessments, diagnose health problems, order diagnostic tests, prescribe medications and treatments, and perform minor surgical procedures. They participate in community policy development, health promotion and illness prevention programs. The Collaborative Nurse Practitioner program is offered jointly by Saskatchewan Polytechnic and the University of Regina.

Designation as a registered nurse in a Canadian jurisdiction with at least two years of experience. To apply to the Collaborative Nurse Practitioner Program, you must satisfy the Nursing admission requirements listed in the University of Regina's Faculty of Graduate Studies and Research website.

Nurse Practitioner

School of Transportation

It's not only cars and trucks that have become increasingly computerized and complex—it's agricultural machinery, heavy equipment, recreational vehicles and planes, too.

That's why there's a growing demand for skilled tradespeople and other individuals who can repair, service and operate them. Our School of Transportation programs will give you the tools to take on these challenges with confidence.

 saskpolytech.ca/transportation

<p>Agricultural Equipment Technician – certificate Location: Saskatoon Duration: 35 weeks</p> <p></p>	<p>From global positioning systems integrated into equipment operation and systems management to computerized engine control for environmentally efficient operation, agricultural equipment has gone high tech—and so has the agricultural machinery technician trade. The Agricultural Equipment Technician program blends classroom theory with extensive shop work and a two-week work placement. Your skills are in high demand at leading agricultural equipment dealerships, service centres and large farm operations. Trade time and academic credit are available for grads who find employment in the trade and register as apprentices.</p>	<p>Grade 10.</p>	<p>Agricultural Equipment Technician</p>
<p>Auto Body Technician – certificate Location: Regina, Saskatoon Duration: 32 weeks</p> <p></p>	<p>There are more than 18 million motor vehicles in Canada; it's like job security for auto body technicians. The Auto Body Technician program combines classroom learning with hands-on training in state-of-the-art shop facilities. When you graduate, you're ready for work at auto body repair shops, dealer repair departments, equipment manufacturers and even aircraft manufacturing plants. Trade time and academic credit may be available for grads who find employment in the trade and register as apprentices.</p>	<p>Grade 10.</p>	<p>Automotive Glass Installer Collision Estimator Body Technician</p>
<p>Automotive Service Technician – certificate Location: Moose Jaw, Saskatoon Duration: 36 weeks</p> <p></p>	<p>As vehicles become more sophisticated, demand increases for technicians capable of diagnosing and repairing complex problems. The Automotive Service Technician program prepares you for a career in the ever changing automotive industry. Job opportunities are more diverse than you might think—work in automotive OE or after market repair shops, hone your skills as an engine or transmission rebuilder, or work in sales, service and warranty departments. Trade time and academic credit may be available for graduates who find employment in the trade and register as apprentices.</p>	<p>Grade 12. Physically mobile, capable of moderate lifting, good manual dexterity. Valid driver's license.</p>	<p>Automotive Service Technician</p>

Program name and details

Overview

Admission requirements

Sample career titles

Commercial Pilot – diploma

Location: Saskatoon

Duration: 76 weeks

Take to the skies with Saskatchewan Polytechnic's award-winning Commercial Pilot program, offered in partnership with the Saskatchewan Aviation Council (SAC). The Saskatchewan Polytechnic/SAC Commercial Pilot program provides the training you need to become a commercial pilot. The program alternates ground school training at Saskatchewan Polytechnic with actual flying experience at your home flying school. Earning your commercial pilot's licence with multi-engine and instrument flight ratings will open the door to careers with scheduled or charter airlines as well as air operators that provide many different types of flying services.

Grade 12. Category 1 Medical Certificate from a Transport Canada approved medical examiner is required. Physics 30, Pre-Calculus 20 and Foundations of Mathematics 30 are recommended.

Airline Pilot
Charter Pilot
Flight Instructor

Heavy Equipment and Truck and Transport Technician – certificate

Location: Saskatoon

Duration: 35 weeks

Saskatchewan Polytechnic can give you the skills industry demands to keep the world moving and growing. The Heavy Equipment, Truck and Transport Technician program offers diverse training on the maintenance and repair of construction and transportation equipment. Industry growth has led to increased demand for skilled technicians, ensuring ample employment opportunities in various fields. Trade time and academic credit may be available for grads who find employment in the trade and register as apprentices.

Grade 11 with one of the following mathematics: Foundations of Math 20, Pre-Calculus 20 or Workplace and Apprenticeship Math 20 (Modified and General Math credits are not acceptable).

Heavy-Duty Equipment Mechanic
Truck and Bus Mechanic

Parts Management Technician – certificate

Location: Regina, Saskatoon, distance learning

Duration: 32 weeks

All machines have one thing in common—they need replacement parts. Parts management technicians make sure the right parts are available at the right time. The Parts Management Technician program provides training in all types of parts, parts applications and locations. Grads work in automotive, recreation vehicle and heavy truck dealerships, wholesale distribution centres as well as for mines, mills, government departments and industrial suppliers. Trade time and academic credit may be available for grads who find employment in the trade and register as apprentices.

Grade 10.

Inventory Control Specialist,
Merchandising and Sales
Shipper/Receiver
Automotive Parts Person

School of Continuing Education

Reshape how education works for you with flexible, customized learning. The School of Continuing Education provides training solutions tailored toward industries in which professional training is in high demand.

Courses are market-driven and consistently updated to reflect emerging trends and best practices. Internal experts have collaborated to advance and deliver professional development programs, corporate training and micro-credential offerings.

Courses

Take one of 750+ courses to increase your skills or work towards a credential.

Part-time programs

Maximum flexibility for your work-life balance.

Fast-track training

Applied certificates and fast-track programs to get you on the job fast.

Surge Micro-Credentials

Unleash your potential with short, focused courses that accelerate your skills in a specific area.

 saskpolytech.ca/CE

Apprenticeship

Apprenticeship training is a multi-year earning-while-learning arrangement.

Apprentices already have jobs in their desired field of work and have signed a contract of apprenticeship with their employer and the Saskatchewan Apprenticeship and Trade Certification Commission (SATCC). Under the supervision of a certified journeyman, an apprentice receives knowledge and develops skills through on-the-job training.

The skills apprentices learn while working are supplemented with a required number of weeks of in-school technical training each year. Upon successfully completing an apprenticeship program, apprentices are eligible to write an examination to become a certified journeyman in their trade. Saskatchewan Polytechnic is contracted to provide the in-school portion of apprenticeship training for over 20 trades.

All apprenticeship training is scheduled by SATCC.

Learn More

Information about apprenticeship training, including training start dates, may be obtained by contacting the SATCC at 1-877-363-0536 or visiting saskapprenticeship.ca.

Return to Learning

Secondary school completion and upgrading

Earn the equivalent of a high school diploma in the Adult 12 program. Graduates can upgrade marks or take additional high school courses if needed for post-secondary admission. If you already have the skills and knowledge of a Canadian high school graduate but need the documentation to prove it, we offer a program that prepares you to take the GED® tests. Build basic academic and life skills in Adult 10 and literacy programs. Learn more at saskpolytech.ca/upgrading.

Adult literacy / learning centres

Learning Centres and instructors can give you individual assistance with reading, writing and math, as well as help you improve your computer and job search skills. Learn more at saskpolytech.ca/LAE.

Employment readiness

Prepare for the world of work through in-class and on-the-job training. We partner with business and industry to offer an array of learning and employment opportunities. We also provide job-readiness programming for adults with disabilities and individuals of Indigenous ancestry. Learn more at saskpolytech.ca/employmentreadiness.

English language training

Our English language training programs are suited to newcomers to Canada. Learn more at saskpolytech.ca/englishlanguagegetraining.

Co-operative Education

Select business and engineering technology programs at Saskatchewan Polytechnic have a co-operative education component. Co-operative education can:

- Expand your professional network.
- Allow you to obtain experience and real-world skills relevant to your program on-the-job.
- Advance your career.
- Give you an opportunity to earn while you learn.

Ready? How to Apply

🌐 International applicants please refer to page 12.

How do I apply?

Online = \$75

Visit saskpolytech.ca/applynow.

VISA, MasterCard and Interac Online with participating financial institutions.

Mail = \$100

Print a copy of the application form from the website or obtain a paper copy from any campus and mail in along with your cheque for payment.

In Person = \$100

Visit Registration Services located at any of the main campus locations.

Do you know which program you want to take?

Yes

AWESOME!
Is it a high-demand program?

No

We can help!

- Browse through our 150+ programs
- Try our Program Explorer tool to build a list of programs that could be a good fit for you
- Visit a campus during an upcoming tour and/or event

For more information, visit saskpolytech.ca/explore.

Yes

High-demand programs are open for application from October 1 to February 15 each academic year. All supporting documentation is required by 4:30 p.m. (Saskatchewan time), March 1.

Please refer to saskpolytech.ca for the current list of High Demand Programs.

No

You can apply as soon as you are enrolled in the courses and at the grade level you require for admission. For instance, for a program where Grade 12 is an admission requirement, you may apply in September of your Grade 12 year.

More information can be found at saskpolytech.ca/howtoapply

What else do I need to do?

Along with your completed application form and application fee, you will need to include:

- An official transcript of your high school marks*; or
- A preliminary statement of high school standing**; and
- All other (if any) documents required by the program.

High-demand programs have selection criteria in addition to regular academic admission requirements. All admission requirements are listed on our program web pages at saskpolytech.ca.

Upon receipt of your application, you will receive your Saskatchewan Polytechnic identification number and instructions on how to log in to your Saskatchewan Polytechnic account. All communications will be sent through your mySaskPolytech email account unless you choose to automatically forward it to your personal email account.

If you are accepted into your program, you will receive a notification from Saskatchewan Polytechnic letting you know your start date, tuition fees and other costs (such as books, supplies and students' association fees). If you are a sponsored student, your sponsoring agency will need to provide us with written confirmation of your sponsorship.

In your acceptance notification, we will ask you to pay a \$600 tuition deposit within 30 days to hold your spot in the program.

Once accepted, get familiar with Sask Polytech by taking our virtual orientation at saskpolytech.ca/welcome.

*If you have already completed the high school requirements for admission, arrange for an official transcript to be forwarded electronically to us by the Saskatchewan Ministry of Education or from the appropriate provincial ministry of education if your requirements were completed outside of Saskatchewan. Learn more about transcripts and other supporting documentation at saskpolytech.ca/supportingdocumentation.

What if I do not meet the admission requirements?

If you do not meet admission requirements, you have some options:

- Consider various academic upgrading programs at Saskatchewan Polytechnic or through your high school or a regional college.
- You may qualify for special admission. Contact a Sask Polytech recruitment advisor at any campus for details. Special admission may include use of an assessment tool called ACCUPLACER that tests math and English skills and/or consideration of successfully completed courses and/or credentials. See saskpolytech.ca/specialadmission for details.
- You may be able to begin your studies as a part-time, unclassified student. Unclassified students are students who are registered in a Sask Polytech course but who are not currently admitted to a Sask Polytech program.

For programs with math admission requirements, previous Saskatchewan math requirements are also accepted.

English Language Proficiency is required of all applicants whose first language is not English. Additional ELP criteria may be required for some programs. For more information, visit saskpolytech.ca.

**If you are currently completing high school requirements for admission, a conditional admission can be granted based on preliminary results. This information can be submitted through any one of the following options:

- a student profile of registrations (outlining enrolment verification, course schedule, graduation date) originating from your school
- official Ministry of Education transcripts
- an email from secondary/post-secondary staff supplying the required information for conditional admission that must clearly originate from the school and contain a full signature block (name, position, school).

First Qualified First Admitted (FQFA) Application Process

The First Qualified First Admitted Application process is used for the majority of programs at Saskatchewan Polytechnic. The sooner you apply with all of the necessary documentation (application, transcripts, supporting documentation), the sooner you can qualify for admission to a program.

Applications are accepted all year round for FQFA programs. For the greatest chance of obtaining a seat, domestic applicants (Canadian citizens and permanent residents [landed immigrants]) are encouraged to apply before our February 15th priority consideration date. Past this date, applicants are still encouraged to apply, however, seats in selected programs will now be open to international students.

Using the Business Information Systems program as an example, students require Grade 12 plus any 30 level math to qualify for admission to the program.

- Pam qualifies for the program on January 15th.
- Mike qualifies for the program 2 days later on January 17.
- Both Pam and Mike are qualified for the program, but because Pam has qualified before Mike, she will be awarded a seat before him. Hence the term *First Qualified First Admitted*. Mike's higher grade in a 30 level math does not influence his standing, as both meet the requirements for the program. Pam will be awarded the seat with a January 15 qualifying date; the qualifying date is how applicants are placed in priority.

If Pam happens to take the last available seat, Mike will be placed on the waitlist for the upcoming intake (purple arrow). This means that if a seat opens up prior to the start of the program, Saskatchewan Polytechnic will call people on the waitlist to fill this seat. This could happen at any time, right up to the start of the program.

If Mike is still on the waitlist after the program starts, he will be contacted in October and invited to re-apply to the next intake of the program (blue arrow). If he says yes, he will have to pay the application fee again, but he will get to retain his qualifying date of January 17. This is to his benefit, as it will place him ahead in the line, in front of persons such as Jim, who qualifies for the same intake on November 22.

Sask Polytech cannot predict how many applicants with a qualifying date before Mike's will take the opportunity to re-apply. We can only advise that the more times an applicant re-applies, the greater their chances of getting a seat in the program.

Business Information Systems program Grade 12 with any 30 level math

High-Demand Application Process

A small number of Saskatchewan Polytechnic programs are currently designated as high-demand. They are:

- Dental Hygiene
- Medical Laboratory Technology
- Medical Radiologic Technology
- Practical Nursing

High-demand programs open for application on October 1 and close on February 15, each academic year. All supporting documentation is required by 4:30 p.m. (Saskatchewan time) on March 1.

International applicants are considered for admission to some high-demand programs. Refer to each program's official web page for the current status of international applications.

High-demand programs have admission requirements plus additional selection criteria. Admission requirements set the minimum academic standard required for success in a program. The selection criteria for high-demand programs are broader than academic requirements. Examples of potential selection criteria include interviews, career explorations and work or volunteer experience.

Official high school transcripts must be submitted directly to Saskatchewan Polytechnic at the end of semester one and the end of semester two of the Grade 12 year. The Ministry of Education will send transcripts at the end of each semester for the cost of a single transcript. Saskatchewan Polytechnic must receive final Grade 12 transcripts by August 1.

Final admission is determined after additional phases of the high-demand process have been applied and program-specific requirements have been met.

Competitive Application Process

The Saskatchewan Collaborative Bachelor of Science in Nursing (SCBScN) program, delivered in partnership with the University of Regina, uses a competitive admission process. Applications are ranked according to specific program requirements.

The program is open for applications from October 1 to February 15 each academic year. Online applications close at 11:59 p.m. (Saskatchewan time); in person applications must be handed in by 4:30 p.m. (Saskatchewan time) on February 15.

If you are a current high school student, you will submit two transcripts for your application. The first one is sent at the end of semester one and the second at the end of semester two upon graduation of your Grade 12 year. The second, or final transcript, must be an official transcript submitted to Saskatchewan Polytechnic by August 1.

If you are a high school graduate with less than 15 credit hours of post-secondary, all high school admission requirements must be completed and an official transcript submitted to Saskatchewan Polytechnic by March 1.

All post-secondary transcripts must be mailed directly from the institution attended to Saskatchewan Polytechnic by March 1. Applicants who are enrolled in post-secondary courses at the time of application must submit their final transcript by August 1. Applicants with outstanding grades at another post-secondary institution as of August 1 will be required to have an additional transcript submitted to Saskatchewan Polytechnic by September 1.

For international applicants with student visas, the application period closes on December 31 and all documents must be submitted by January 31.

Students must submit official transcripts from ALL post-secondary institutions attended even if fewer than 15 credit hours are completed. Failure to disclose attendance at another post-secondary institution may lead to cancellation of your application.

Financing your education

Tuition, fees and expenses

Application fees are due with your application. Tuition and other assessed fees are due at the time of your registration. Check saskpolytech.ca for tuition and other assessed fee details.

Financial assistance

Full-time students may receive financial assistance under the Canada and Saskatchewan Student Loans programs, including the Saskatchewan Advantage Scholarship for new Grade 12 graduates. Part-time students may receive assistance under the Canada Student Loans program for part-time students.

Learn more at saskpolytech.ca/financialassistance.

Student awards

Saskatchewan Polytechnic provides approximately \$2 million in student awards each academic year.

Saskatchewan Polytechnic offers student awards for almost every certificate, diploma and degree program at every campus. Not all student awards are based on marks – some are based on financial need or things like community or volunteer involvement. Some bursaries and scholarships are available to all Sask Polytech students, while others are for students attending a specific campus or program, or for education equity students.

Once you've been accepted as a student, you can apply online for awards and scholarships. Award and scholarship opportunities are available throughout the year.

Learn more at saskpolytech.ca/scholarships.

Get credit for what you know

If you have life experience, previous post-secondary education or took dual credit courses in high school, you may be eligible for credit toward your Saskatchewan Polytechnic program. There are three ways to get credit.

Dual credit

Get both Sask Polytech and high school credit at the same time. If you are a Saskatchewan high school student thinking of becoming a Sask Polytech student in the future, consider dual credit. Select Sask Polytech courses are offered to Saskatchewan high school students, as a part of a high school course or as an elective course. If you have taken Sask Polytech courses through a high school dual credit program, you may also be eligible for credit in your new program.

Learn more at saskpolytech.ca/dualcredit.

Transfer credit

Transfer credit acknowledges formal learning from another recognized post-secondary institution toward a Sask Polytech program. Be sure to consider all of your prior post-secondary education, even if you did not complete the program, for possible transfer credit. Military training also counts for transfer credit into some programs.

Prior Learning and Recognition (PLAR)

PLAR assesses knowledge and skills gained through work, volunteer or other non-formal learning for credit in a Sask Polytech program.

More information is available at saskpolytech.ca/getcredit.
